

## Medicare coverage information

If the patient is on any of the following medication then Medicare pays to PGX testing with no copay or deductible:

Amitriptyline

Nortriptyline

Tetrabenzine over 50mg

Plavix

Warfarin

## Private insurance coverage information

Most private insurances provide payment for PGX test, however unlike Medicare there may be a copay or deductible. If you have a private insurance patient who is taking a medication on the provided list you may send them to Suntree Pharmacy for collection. Below is a list of insurances that DO NOT cover PGX. If the insurance is not on that list we can do PGX testing:

### Not Covered

Medicaid

Av Med

FL BC/BS

FED BC/BS

Tricare
